LeetCode: Shivesh977

EDUCATION

- National Institute of Technology (NIT) Jalandhar** Punjab, India
B.Tech – Data Science; GPA: 7.61 July 2023 – July 2027
Relevant Coursework: Operating Systems, Data Structures, AI, Machine Learning, Computer Networks, DBMS, Deep Learning, OOP, Information Security

EXPERIENCE

- Quant Power Labs Private Limited** Dec 2025 – Mar 2026
Machine Learning Intern
 - Designed time-series forecasting models for energy consumption, achieving approximately 25% MAPE/SMAPE on unseen data.
 - Developed LightGBM, XGBoost, CatBoost, and ensemble models to improve forecasting accuracy.
 - Built leakage-free pipelines using lag, rolling-window, and calendar-based features.
 - Implemented recursive multi-step forecasting for 24-hour-ahead demand prediction.
 - Collaborated with teams to evaluate models, improve feature engineering, and enhance deployment readiness.

SKILLS

- Languages:** C, C++, Python, JavaScript
- CS Fundamentals:** DSA, OOP, Operating Systems, DBMS, Computer Networks
- Web:** Node.js, Express.js, React.js, HTML, CSS, MongoDB
- ML/AI:** Scikit-learn, TensorFlow, LangChain, Hugging Face, Pandas, NumPy, Matplotlib
- Tools/Cloud:** MySQL, Git, GitHub, Postman, Streamlit, Power BI, AWS, RAG, Vector Databases

PROJECTS

- CareerCopilot AI** GitHub
React.js, Node.js, Express.js, MongoDB, Gemini API
 - Developed an AI career assistant that analyzes resumes against job descriptions and generates ATS-based matching scores.
 - Implemented skill-gap analysis and personalized study plans for interview preparation.
 - Built downloadable reports summarizing missing skills and recommended preparation topics.
- Potato Disease Classification System** GitHub
TensorFlow, CNN, FastAPI, React.js, TensorFlow Lite
 - Developed a CNN-based potato leaf disease classifier using TensorFlow, data augmentation, and `tf.data` pipelines.
 - Deployed the model using FastAPI and TensorFlow Serving and optimized inference using TensorFlow Lite quantization.
- Multimodal RAG** GitHub
Python, LangChain, Streamlit, Qdrant, LLMs
 - Developed a multimodal RAG system for answering queries from PDFs containing text, tables, and images.
 - Built retrieval and generation pipelines using embeddings, Qdrant, LangChain, and LLMs with an interactive Streamlit interface.

CERTIFICATIONS & ACTIVITIES

- Generative AI Certification – July 2026:** LLMs, RAG, LangChain, Vector Databases, AI Agents, LoRA and QLoRA.
- Deloitte Australia Data Analytics Virtual Internship – Forage:** Performed forensic data analysis and created business dashboards using Excel and Tableau.
- IBM Python for Data Science, AI and Development – Coursera:** Python programming, data analysis, AI fundamentals and data science tools.
- Executive Member – PACE Society, NIT Jalandhar:** Contributed to technical events, peer mentorship and coding activities.

HONORS & AWARDS

- 3-Star Coder at CodeChef; solved 500+ DSA problems on LeetCode.
- LeetCode Rating: 1439.
- Global Rank 942 in CodeChef Starters 203 (Div. 3).
- State-Level Finalist – Spell Bee Competition.
- Final Round Qualifier – “Let’s Startup” Competition, IIC.
